Professional Summary

Computer Engineering student with experience building backend applications using Java, Spring Boot, Hibernate, and MySQL. Skilled in REST API development, database design, and web application development.

Technical Skills

- **Languages:** Java, SQL, Python
- **Framework:** Spring Boot, Spring MVC, Hibernate (JPA), Spring Security
- **Developer Tools:** Maven, Git, GitHub, Postman
- **Concepts:** REST APIs, OOP, Data Structures & Algorithms, DBMS

Experience

Freelance Software Developer

Remote

Creonox, [creonox.in](#)

Feb 2025 – Sep 2025

- Optimized scalable REST APIs using Spring Boot, improving response time by 25% via query optimization(indexing).
- Implemented authentication and validation using Spring MVC and Hibernate (JPA).
- Delivered features end-to-end (DB, API, testing) for client projects.

Software Development Intern

Remote

SP WebDevs, [spwebdevs.com](#)

Mar 2024 – Jun 2024

- Built and tested REST APIs using Spring Boot.
- Launched and deployed the company website end-to-end, supporting 100+ users.
- Collaborated on API integrations and assisted in CI/CD setup using GitHub Actions.

Projects

Coding Assessment Platform

[Source Code](#)

Tech: Java, Spring Boot, Spring Security, MySQL, Judge0 API, Monaco Editor

- Developed a coding assessment platform with real-time code execution using Judge0 API, supporting 10+ programming languages and interactive coding evaluations.
- Engineered an automated evaluation system with 100+ test-case executions per assessment, JWT authentication, timed assessments, and an admin dashboard managing 500+ submissions.

Chatbot-Based Ticketing System for Museums

[Source Code](#)

Tech: Java, Spring Boot, Spring Data JPA, Hibernate, MySQL, HTML, CSS, JavaScript

- Architected an AI-powered museum ticketing system using Spring Boot and OpenAI API, enabling context-aware chatbot interactions and automated visitor support.
- Designed secure RESTful APIs with JPA, MySQL, JWT authentication, and RBAC, streamlining ticket booking workflows and supporting 500+ user interactions.

Interview Analyzer

[Live Demo](#) | [Source Code](#)

Tech: OpenAI API, Python, JavaScript, Git

- Built an AI-powered interview analytics platform using OpenAI API, aggregating 1,000+ interview experiences through web scraping and structured data storage; implemented advanced search, filtering, anonymous submissions, and categorized question banks to enhance interview preparation.

Education

R. C. Patel Institute of Technology, Shirpur

Nov 2023 - Jun 2026(Expected)

Bachelor of Technology in Computer Engineering

CGPA: 7.87/10

S.S.V.P.S. Polytechnic, Dhule

Aug 2020 - Oct 2023

Diploma in Computer Engineering

Percentage: 84.46%

Achievements & Activities

Coding Achievements: Solved 500+ problems on LeetCode and CodeChef with a CodeChef rating of 1331.

Training & Certification: Completed Java Full Stack Development Training Program by **Symbiosis and Capgemini**.

Technical Team Head, E-Builders Club, RCPIT: Led and coordinated large-scale technical events with 500+ participants.
